Food! Data! Design! If these are a few of your favorite things - @me!

Project Title	Food! Data! Design! If these are a few of your favorite things - @me!
Summary	Develop and design "Market Brief" reports for key U.S. food and agricultural products to Taiwan. Engage with Foreign Service Officers serving in Taiwan to access databases, understand trade and consumer trends, and develop high-end product.
Country	Taiwan

Project Description

Are you interested in international trade? Agriculture or exports? Are you looking at a career in the Foreign Service?

Are you creative and can design basic, attractive documents? Are you looking to add a shining star to your resume??

The American Institute in Taiwan's (AIT) Agricultural office seeks an enterprising intern to develop "Market Brief" reports in coordination with USDA Foreign Service Officers. Selected intern will design, develop, and publish reports for key U.S. agricultural commodities to Taiwan. Taiwan is the 7th largest trading partner for American farmers and ranchers and is a key ally for the United States. Intern will be given access to key databases and information to develop reports. Intern will develop contacts and engage with AIT staff to best understand trade and consumer trends. Selected participant will create a template to ensure a consistent, attractive product. Intern and AIT will hold bi-weekly (or as needed) mentoring sessions with Foreign Service Officers to discuss project, educational and career goals, agricultural or international trade, etc. Position and further letters of reference would be strong resume fodder for someone interested in international trade, agricultural trade, foreign service etc.
